Kommentar: United Airlines Boeing 737-924(ER) (N69818) took to the skies on Friday (March 28 2014) to honor the company’s top 100 employees. The Boeing 737-924(ER) features the company’s “United 100” logo on the exterior. The airline designed the United 100 program to recognize 100 employees nominated and selected by their co-workers for exemplary performance or achievements that support the cornerstones of the company’s business plan. Being honored as a United 100 recipient is the company’s highest honor for employee recognition.
